**2010 Neighborhood University Conference  
“Cultivating Healthy Neighborhoods”**

**Metropolitan Baptist Church, 525 W. Douglas Avenue, Wichita, Kansas  
Saturday, September 18, 2010 – 8:00 a.m. to 1:30 p.m.**

The Wichita Independent Neighborhoods 2010 Neighborhood University Committee hosts an annual conference with its mission for communities throughout the area to have an excellent opportunity to come together and share their knowledge, experience and vision to make Wichita neighborhoods healthy places to live and work. Although each neighborhood is unique, all neighborhoods, not only in Wichita, but statewide face very similar issues and challenges ranging from the basics of organizing to addressing the complicated issues of public safety. Each year the conference is attended by a diverse group of grass roots neighborhood leaders and youth, non-profit and government staff, and others working in the field of neighborhood development.

*“While each neighborhood is unique, all face similar issues. From the basics of organizing and conducting meetings to finding resources for needed projects, everyone needs to have the skills to make a difference.” --Estelle H. McCadden*

The conference provides a great opportunity for attendees to participate in information-packed workshops, listen to thought provoking speakers, view exhibits, and engage in unparalleled networking opportunities with many neighborhood advocates. The one thing all attendees have in common is their interest in improving Wichita neighborhoods. As a part of a community, wherever you work, live, or play, your neighborhood is a central part of your life and deserves your attention.

As we begin another conference, please join us as we work together in realizing that the future of Wichita and Kansas lies in the success of our neighborhoods and in the faith of those who strengthen them.
